

Best Event Produced for a Corporation

Budget Under \$50,000

A memorable night in an unforgettable location, our team was challenged by our client to provide a final night dinner in a unique location that played into the meeting themes of creativity and connections. We settled on a historic museum in our city that was home to priceless works of art from around the country. Cocktails and dinner were served in this 100 year old building and we utilized multiple galleries to provide guests to opportunity to experience art in all of its forms. The history of our city was highlighted by assigned each table a neighborhood from our city and showcasing the unique features of that area. An electric harp and flute duo provided background entertainment filling the space with an unexpected sound.
